Poltava University of Economics and Trade

International Economics,
 International Relations

Short description:

„Together to the heights of professional excellence and life success of everyone!” (Poltava University of Economics and Trade). Poltava University of Economics and Trade has its roots set since the 1960’s, when it was only a teaching and education center. Since then it has grown into a university that trains specialists in the field of Finance, Accounting and Auditing. Next to these specializing fields the university also offers other course, which you can consult on the website. Students graduating from this university occupy key positions in scientific understanding and have the necessary skills and knowledge to develop future enterprise business activities. For more thorough information, visit the following website: <http://en.puet.edu.ua/>

Exchanges:
