

Hello future Erasmus students!!!

I promised you that I will write about the parties here in Gent. The first thing you should know is that you can't resist temptation going out everyday. That's a fact! :D There are a lot of bars and clubs, you can easily find your taste of music. There is a place called 'Overpoort' and it's a party street for the university students. Usually younger generation goes there so if you want something more 'serious' you can find clubs and bars in the city center. I've been here for 2 months and I realized that the vibe of Gent is kind of hipster which is so cool, I love that.

As I mentioned before my class is super amazing we are going out together almost everyday. Every programme has its own Whatsapp group, so if you are feeling to hang out you just message the group. Also we organize everything in that group so you can't miss anything ;). We always do a 'pre party' at someone's place and we all know those are the best :D. Oh and I am just telling that you are the luckiest person if you have your birthday during your Erasmus. As you can see it on my picture we organized a surprise party and it was so much fun

\*.\*

All in all what I suggest you is to be open-minded make new friends and take part in the activities. It's not a problem if you are not that 'going out person'. You can join the others anytime you don't have to be there all the time. For example I like to explore new cities more than the parties. Don't worry there are other people who feel the same so you won't travel alone. :D Erasmus is about making new friends and exploring the world.

In my next blog I will show you a beautiful place where we travelled with the Erasmus students. I hope you looking forward to it. See you soon ☺
